Dear Kelita:

It has been a few weeks since our blessed evening in concert; sharing you with the CWL's of all the parishes in Oakville. I must tell you that it was the first time that all 7 presidents had brought their members together. What a joyous evening!!!

Kelita, the impact that your music had on the people that attended was in the truest definition of the word, "awesome!" Your music captures a person's senses for the two hours you are with them. The comments and accolades were filled with love and thanks for you coming and blessing us with your music.

I have loved your music for over ten years....from the first time I heard you in concert. The words of your prayers that you sing touch hearts way beyond anything humanly possible by you. Jesus is present in you through your music. People shared breakthroughs that occurred in their hearts the night of your concert. Thank you....

This was a unique event for CWLs to host. The reality of the overwhelming affirmation for this event came with the free will offering from our guests. Without being asked any admission charge, people gave generously enough to cover the entire cost of hosting you! Trusting in the Lord, and He provided.....as always.

My hope for you is that this letter will encourage others to share the blessings of your music with their church communities and beyond. It would be my pleasure to offer my contact information to anyone who might wish to speak with me directly.

Thank you again, Kelita, for coming to Oakville. You are in our prayers always.....

In His name,

Pauline Houlahan
President
