To Whom It May Concern:

Kelita is 5 Times Juno Nominee, multi award winning recording artist who has been known in the country music field but in recent years Contemporary Christian. After I was introduced to Kelita's talents we paired her up to successfully co-write several songs on Susan Aglukark's multi platinum album "This Child". Kelita's new project "Heart of a Woman" is a strong compilation and I think Kelita's best songwriting to date. The songs are raw and powerful and cross many boundaries. I believe that these songs would be very suitable as cover songs for artists as well as use in TV and film.

Please give them a listen and I hope you enjoy Kelita.
