To Whom It May Concern,

World Vision is the largest Christian sponsorship organization in the world. We have been working to help to the poor through our relief and development work for over 50 years and in over 100 countries. Last year over 290,000 Canadians choose to sponsor children through World Vision.

For the past 5 years it has been distinct pleasure at World Vision Canada to have Kelita Haverland as part of our Artist Associate Program. The World Vision Artist Associate Program is where talented artists choose to present the work of World Vision to their audiences and encourage the sponsorship of children in desperate need. The program joins the forces of creativity and compassion to produce a tangible, lasting difference for the future of the world's children.

Throughout Kelita's partnership with World Vision Canada she has had over 100 children sponsored at her concerts. Her work with us is essential in transforming the lives of children around the world. She is a wonderful ambassador for our work and we highly recommend her as a musician.

Sincerely,

Amber Sloan
World Vision Canada
